Before you collaborate

A little bit of preparation goes a long way with this session. Here's what you need to do to get going.

10 minutes

Team gathering
Define who should participate in the session and send an invite. Share relevant information or pre-work ahead.

Set the goal
Think about the problem you'll be focusing on solving in the brainstorming session.

Learn how to use the facilitation tools
Use the Facilitation Superpowers to run a happy and productive session.

Open article

Define your problem statement

What problem are you trying to solve? Frame your problem as a How Might We statement. This will be the focus of your brainstorm.

5 minutes

PROBLEM
How to alert the user if they come near to the containment zones

Key rules of brainstorming

To run an smooth and productive session

- Stay in topic.
- Encourage wild ideas.
- Defer judgment.
- Listen to others.
- Go for volume.
- If possible, be visual.

Brainstorm

Write down any ideas that come to mind that address your problem statement.

10 minutes

TIP
You can select a sticky note and hit the pencil icon (switch to sketch) icon to start drawing!

Arjun AM

Admins can monitor user's continuous movements

Highlighted zones based on the degree of the infectious zones

Arjun AM

Alerts about nearest containment zones.

Updates based on data given by government regarding containment zones.

User's vaccination details

Alerting people 500meters before reaching the zones

Location tracking

Alerts are notified via SMS using mobile number given.

Bojja Venkata Jathin Royal

Daily Covid cases

Hospital Bed Allocation

User information

Helpline numbers

Karthikeyan K

Notify on visited zone removed from containment zones

Minimal mobile knowledge is required to use the app

Using information from hospital and take data analysis and allocate zone

To make the user easily access we can provide Covid statistics on a bottom sheet in Google Map

Karthikeyan P

User can share the status as public whether they affected or not

User must keep updated of their app for better reliable of data

24/7 Monitoring of affected zone and alerting it

To detect the radius using Cloud Firestore

Group ideas

Take turns sharing your ideas while clustering similar or related notes as you go. Once all sticky notes have been grouped, give each cluster a sentence-like label. If a cluster is bigger than six sticky notes, try and see if you and break it up into smaller sub-groups.

20 minutes

Tracking of user

GPS Tracking of location

Cellular triangulation for tracking

Android's geofencing client is used to create geofences around the containment zones

To detect the radius using Cloud Firestore

ALERT USER

Alerting people 500 meters before reaching the containment zones

24/7 monitoring of affected zone and alerting it

Alerts are notified via SMS using mobile number given

Containment zone shown in the google map

Zone identification

Sharing of the status

Notification of entering containment zone

Updates based on government database

Highlighted containment zones

Prioritize

Your team should all be on the same page about what's important moving forward. Place your ideas on this grid to determine which ideas are important and which are feasible.

20 minutes

After you collaborate

You can export the mural as an image or pdf to share with members of your company who might find it helpful.

Quick add-ons

Share the mural
Share a view link to the mural with stakeholders to keep them in the loop about the outcomes of the session.

Export the mural
Export a copy of the mural as a PNG or PDF to attach to emails, include in slides, or save in your drive.

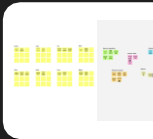

Keep moving forward

Strategy blueprint
Define the components of a new idea or strategy.
